Start with a basic keyword search for the terms you are researching. In this case we’ll look for *medical coding AND insurance*. 
Probably the easiest way to fine tune a search is to identify subjects that match your research topic. After you have one or more subjects, open the advanced search ....
Once in the advanced search, place the subject term(s) in the box and change the search field to SU Subject Terms. **Limit your results** to full text. Search.
